ROYAL CELLS™ RADIANCE

Regenerating serum with
ZEBRAFISHCAVIAR™

EN

From the most modern dermocosmeceutical research with a biological approach, the **Royal Cells** line is born, consisting of specific products, with unique formulations, free of parabens, dermatologically tested and fragrance free.

The **Royal Cells** line stands out for its innovative and specific skin-restoring and rebalancing properties, designed for the skin of the face, body and scalp.
The products are formulated according to the most modern technological and cosmetic guidelines of efficacy, safety and comfort for the skin, even in the most delicate and sensitive areas of the body.

Royal Cells are innovative products for skin and scalp care, based on the research of Dr. Pier Mario Biava on cell growth and differentiation factors, which support the metabolism of epithelial cells by contributing to the natural process of regeneration and replacement of skin.
The unique formulation of **Royal Cells** line is characterized by the presence of **ZEBRAFISH**CAVIAR™ or Roe Extract, a set of substances extracted from Zebrafish eggs, which promote the regeneration of skin stem cells.

ZEBRAFISHCAVIAR™: Also called Roe Extract, it is an innovative natural extract of protein factors derived from Zebrafish fish eggs, obtained with controlled extraction procedures to maintain all the characteristics of purity, efficacy and safety. Several international studies have highlighted peculiar and unique properties of rebalancing of the skin's natural regenerative processes, even in situations of sensitive, hyperkeratotic, flaking or dry skin. The constant use of **Royal Cells** RADIANCE helps to regenerate, restore hydration and elasticity to the dermis, even in the most sensitive areas.

Royal Cells RADIANCE: Regenerating and restructuring serum for the face, eye contour and décolleté. With ZEBRAFISHCAVIAR ™ or Roe Extract, hydra complex and hyaluronic acid. The unique formula of Royal Cells RADIANCE contains a high concentration of natural ingredients. The serum is free from parabens, silicones, dyes, alcohol and mineral oils.

The unique formulation of **Royal Cells** RADIANCE promotes the rebalancing of dermal regeneration processes, intensely hydrates by stimulating cell renewal, increases skin elasticity and helps to calm irritation.
Particularly suitable for dry, sensitive and even mature skin.

In addition to **ZEBRAFISH**CAVIAR™ or Roe Extract, **Royal Cells** RADIANCE contains:

Hydra Complex: moisturizing and elasticizing complex capable of compacting the skin.
Hyaluronic Acid with Differentiated Molecular Weight: able to distribute itself in the various layers of the epidermis and ensure intense and lasting hydration.

How to use: Apply the desired quantity 1 or 2 times a day with the dispenser of the bottle on the forefinger, then distribute the serum on the face, eye contour and décolleté, massaging gently until completely absorbed. Be very careful not to get the lotion in contact with your eyes. In case of accidental contact with the eyes, wash immediately with plenty of running water.

Royal Cells RADIANCE does not grease and it is rapidly absorbed.

For external use only.

Ingredients: Aqua, Roe extract or ZEBRAFISHCAVIAR™, propanediol, peg-7 glyceryl cocoate, sodium hyaluronate, hydrolyzed hyaluronic acid, sodium hyaluronate crosspolymer, sodium acetylated hyaluronate, hydrolyzed sodium hyaluronate, glycogen, lactobacillus ferment, inositol, betaine, peg-40 hydrogenated castor oil, xanthan gum, pentylene glycol, tocopheryl acetate, sodium benzoate, ethylhexylglycerin, chlorphenesin, citric acid.

PARABEN FREE - FRAGRANCE FREE - WITHOUT ALCOHOL - WITHOUT SILICONES - WITHOUT MINERAL OILS
DERMATOLOGICALLY TESTED

Packaging: Bottle of 30 ml.
